Dear Parents and children of the adoption families, How are you!

I am really glad to hear that the 15 adoption families will hold a reunion party in June which is the most beautiful season. I would like to give my warm greetings and sincere regards through my mail. I wish that every family would be healthy, happy and blessed everyday.

Your reunion party is a party of love. Because of love, you had come to China, to adopt your daughters. Even though, they have lost the care of their biological parents for different reasons and circumstances. But you had come. You had become the parents that they have been waited for a long time, the parents they had seen only in their dreams. When they smiled in your arms, when they grew under your care, when they called you father and mother with tenderness, your love had lightened their lives. You are the best parents in the world. Your hearts are deep and big.

Your reunion part is a party of communication. You share common experiences, common subjects, because you all have a daughter from Gaoyou. You have taught them to understand themselves and nature. You have taught them the way to deal with the reality, and the way to distinguish love and beauty. And yes, because of love and beauty, everything will be right, be in order and be harmonious. You have let them know Gaoyou through map and picture book. During the party, the calling of all beautiful memories will build the friendship between adoption families and children.

Your reunion is a party of sweetness. A famous person said, "Nothing is sweeter than a baby." You will harvest sweet happiness after your hard work. The pure soul, the smiling face like a flower, the clear look of the children will penetrate into your thoughts and lives little by little. It is like a river of vitality that flows through your heart.

The people of your home town will share the success and happiness with you. They will watch the growth of the children with you. They will praise the life of the children with you. We will wish the best for the children under the same blue sky!

Finally, on the behalf of Gaoyou People, I would like to welcome you to revisit Gaoyou!

Best regards

Ni Wencai
